

English Language Summer School 2017: Engineering English

Language tuition normally takes place in small groups of 8 - 15 participants, 20 hours per week. There is a strong focus on listening and speaking skills in social and academic/work related situations (meetings, negotiations, conference presentations etc). In addition to general English language classes, participants attend lectures on British culture and take part in Engineering subject specific language classes; specialising in information technology, renewable energy, mechanical, automotive, aeronautical, electronic or electrical engineering (subject to feasible participant numbers). These complementary learning activities enhance participants' knowledge and understanding of the English language in the context of Engineering. Self-study sessions are also organised in the well-equipped language laboratory to encourage a greater degree of independent learning among participants.

SOCIAL PROGRAMME

Social events and weekend trips are included in the price and will take place according to the schedule. We plan to continue our successful country evenings where participants can exercise their newly gained language skills and introduce their country and its culture to their

international friends on the course. Our film evenings also offer popular entertainment with a cultural touch; we can make recommendations for those wishing to enjoy nightlife in Wrexham, nearby Chester, or even further afield!

ACCOMMODATION

Participants are provided with on-campus accommodation or are allocated to University housing a short distance from the University. All accommodation is single en-suite (private toilet and shower). Usually up to 6 students share a fully equipped kitchen (good for practising your English and making new friends). The Student Village site is close to the learning resources (library, IT), laundry facilities, supermarkets, pubs, restaurants and cafes, and is patrolled 24 hours by security officers. Wi-fi access is available on the entire campus including student accommodation.

STUDENT SUPPORT

Scheduled transfers from/to Manchester airport are included in the programme fees as appropriate. Staff from the Language Centre will support you during your stay in Wrexham. 24-hour emergency numbers will ensure that you will always have somebody to call for help or advice if needed. You will

also be advised on free time activities as well as on individual plans and visits.

MINIMUM AGE: 18 years

DATES: June 26 – July 21

FEE (£): 1800*

*Group discounts available, subject to minimum number of participants per level and area of engineering. Fees include tuition, all tuition material, weekend trips, a guided tour, social events, accommodation, and airport transfers (to/from Manchester airport) subject to schedule and prior agreement of times. Participants are strongly advised to arrange a good travel/health insurance policy, and are responsible for their own meals.

TERMS AND CONDITIONS

A letter of acceptance for the course can only be issued upon receipt of a non-refundable deposit of £900 (£1000 if a visa is required). The balance is payable at least 20 days before the commencement of the course. Deposits will only be refunded under exceptional circumstances, e.g. an unsuccessful visa application or a medical condition. Documentary proof is required, and a non-refundable administration fee of £200 applies.

Apply now by sending your contact details to languages.summer@glyndwr.ac.uk and a member of the Language Centre team will be in touch with you soon.
